

THE FIREFIGHTERS' MANIFESTO

OUR SERVICE. OUR FUTURE.

FUNDING. STANDARDS. A FAIR SAY.

JOIN THE FIGHT FOR
THE FUTURE OF THE FIRE
AND RESCUE SERVICE.

Every firefighter in the UK should lobby decision-makers now to back The Firefighters' Manifesto. To win, we need to focus our message on three core demands:

1. Reverse the cuts and invest in the future of our service.
2. Set national standards for crewing and response times.
3. Give firefighters a fair say through a new advisory body.

ABOUT WHO AND HOW
TO LOBBY HERE:

THE FIREFIGHTERS' MANIFESTO

OUR SERVICE. OUR FUTURE.

FUNDING

Since 2010, central fire funding has been cut by 30% in cash terms.
1 in 5 firefighter jobs have been lost.

To safeguard the future of the fire service, these cuts need to be reversed.
We demand immediate investment in our life-saving service.

STANDARDS

Response times are now at record highs. Crewing levels are getting worse all the time.

Climate change means we need to build resilience in our fire service. To ensure public safety, we need national standards on response times and crewing, properly enforced.

A FAIR SAY

Firefighters are the experts on our industry, committed to protecting our communities. But we are shut out of key discussions, while the NFCC has put firefighters in danger and failed to stand up for our service.

To create the policies and standards that will improve the fire service, a new statutory advisory body must be established – composed of the key organisations across the fire service, including the FBU.
