

Emergency Resolution 1

ENVIRONMENT POLICY

On Monday the 16th of February 2009 the FBU General Secretary circulated an e mail to all FBU officials regarding a survey being conducted by the Labour Research Department on behalf of the TUC. This survey was titled "Unions, greening the workplace and climate change"

The intention of the survey was to provide a picture of progress on climate change in the workplace and the role of the Trade Union movement in this vital area.

With this in mind, this conference calls upon the EC to develop an environmental policy. This policy must include a strategy for progressing environmental issues into all Fire and Rescue Service workplaces and FBU offices. This policy to be completed in time for it to be placed before annual conference in 2010.
